## **【Specimen】**

SDGs Pellet Carbon SDG-7

## **【Test items】**

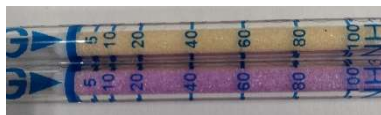

Odor gas adsorption test

## **【Test Summary】**

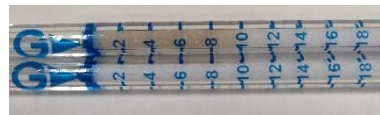

10 g of each sample and a predetermined concentration of gas were placed in a 2L plastic bag, and measured with a detector tube after 1 hour.

## **【Test Results】**

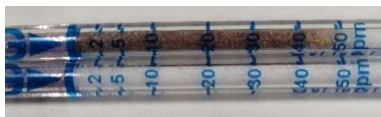

Gas to be tested	Initial concentration (ppm)	After 1 hour (ppm)	Removal rate
Ammonia	100	< 1	99% or more
Hydrogen sulfide	10	< 1	99% or more
Toluene	50	< 1	99% or more
Formaldehyde	5	< 1	99% or more

Ammonia

Hydrogen sulfide

Toluene

Formaldehyde
